Lower Secondary – Edexcel (Grades 6–9)

Head of Sectional Heads Secondary:
Ms. Deepa K. Piyathilaka

PGD (Public Administration) University of Colombo
BSc (Computer Science) Wayamba University
ICDL (International Computer Driving License)

Sectional Head – Lower Secondary:
Ms. Thuritha Nagodawithana

Bachelor of Science in Education,
Reading for Master of Education

Students in Lower Secondary follow the Edexcel curriculum, providing a strong foundation for IGCSE studies. The program emphasizes core academic skills, critical thinking, and subject exploration, ensuring a smooth transition to Upper Secondary.

Grades 6–7: Preparation for IGCSE

• Focus on core subjects: English, Mathematics, Science, ICT, and Humanities.

• Emphasis on analytical thinking, research skills, and practical applications of knowledge.

• Introduction to project-based learning and collaborative tasks to develop teamwork and communication skills.

• Exposure to optional subjects to help students explore their interests before choosing IGCSE pathways.

• Development of digital literacy, problem-solving abilities, and independent learning habits, preparing them for the rigors of IGCSE.

Grade 8: Curriculum Selection for IGCSE

• Students select their preferred IGCSE pathway:

  - Science / Maths Scheme: For students interested in Sciences, Mathematics, and related subjects.

  - Commerce Scheme: For students focusing on Business Studies, Accounting, Economics, and related subjects.

Grade 9: Consolidation & IGCSE Readiness

• Students continue under their selected scheme, strengthening knowledge and skills in chosen subjects.

• Focus on exam skills, coursework, and practical application to ensure readiness for IGCSE assessments.

• Engagement in projects, competitions, and co-curricular activities to foster well-rounded development.

Key Features:

• Comprehensive Curriculum: Solid foundation in all core subjects.

• Optional Subjects & Pathways: Early specialization to develop strengths and interests.

• ICT Integration: Technology used across subjects for learning, research, and projects.

• Project-Based Learning: Hands-on activities and collaborative assignments.

• Analytical & Critical Thinking: Emphasis on problem-solving and reasoning.

• Collaboration & Communication: Presentations, debates, and teamwork-based tasks.

• Co-Curricular Activities: Sports, arts, clubs, and competitions to nurture creativity, resilience, and leadership.

• Personal & Social Development: Values, ethics, responsibility, and emotional intelligence.

• Global Perspective: International content and cross-cultural learning through the Edexcel framework.

Focus & Outcomes:

• Build strong academic foundations for IGCSE success.

• Develop critical thinking, problem-solving, and independent learning.

• Enhance communication, collaboration, and leadership skills.

• Prepare students confidently for Upper Secondary IGCSE studies with a clear curriculum pathway.
